New office hours

Fred Taunton, Upland recreation director, announces new office hours as of March 29.

Taunton will be in his office in the City Recreation Department from 8 a.m. to 12 noon Monday, Wednesday and Friday through the middle of June.

The change was necessitated due to college commitments, Taunton said.

Pavilion dedication

Chet Jaeger and his Night Bloomin' Jazzmen will begin the festivities Sunday, March 28, at 2 p.m. to dedicate the Garland Rogers Pavilion in Upland Memorial Park.

This will climax several years of determined effort and a great amount of singing by the Francis Avenue Singers to honor their original director, Garland Rogers. The neighborhood group raised the funds, hired the architect and oversaw the construction of the soaring music pavilion at the park on East Foothill Boulevard.

The program will be presented by Francis Avenue singer Chuck Rowland, Upland Mayor Pro-Tem John McCarthy and Elwin Alder, Upland city manager, will give brief talks. Kenneth Holme will dedicate the memorial to Rogers and present it to the city. McCarthy will accept.

The concert following the dedication will include the Chaffey High School a cappella choir under the direction of Jeanette Harris, who is also director of the Francis Avenue Singers; a barbershop quartet; Kenneth W. Holme on the Cordovox; Tony Mendoza and the Los Tres Caballeros; Sing Out West End directed by Donald Hoppe; and the Upland High School State band directed by Al Warren.

Special meeting

A special meeting of the Upland City Council will take place Monday, March 29 at 7 p.m.

Two items of business are on the agenda -- an authorization for the execution of an easement deed to the Chino Basin Municipal Water District and a report from the city's auditor on the format of financial reporting.

The special meeting was to have been held March 22 but, according to city hall, it was not possible for the city's auditors to be present at that time.

Gimmick rally

A Grand Prix gimmick rally will be held by Chaffey College's sophomore class to raise funds for a graduation gift to its alma mater Saturday, March 27.

The rally time and point will be 7 p.m. near the main entrance of the Montclair Plaza where each participant will be issued printed instructions.

Drivers and navigators are advised to bring flashlights, clipboards and pencils. The moonlight itinerary is estimated at 25 miles with the trip ending at Shakey's Pizza Parlor at Gary and La Verne Avenues, Pomona.

The top prize will be a pair of ducats to the Questor Grand Prix on the following day, donated by the Ontario Motor Speedway.

Rally proceeds will be invested in a kiosk for the Alta Loma campus. The entry fee is \$1.50 with a student activity card or \$2 straight.

Motor sports show

Chaffey College will herald the Questor Grand Prix with a motor sports show for the March of Dimes from 8 a.m. until 9 p.m., Friday, March 26.

The exhibit in the east patio at the college will be graced with the presence of such Grand Prix drivers as Sam Posay, the American, and Jackie Stewart, the Britisher, along with a formula A racer.

Race track buffs may attend also an open meeting of the Motor Racing Safety Society in the cafeteria by the patio at 7:30 p.m. that evening.

Other attractions will include displays of top dragsters, including the record-breaking Chaffey College Boss Mustang.

Boys' Club Week

With the theme, "Good Kids Don't Grow on Trees," the West End Boys' Clubs will join with more than 900 Boys' Clubs of America in the celebration of National Boys' Club Week, March 29 - April 3.

Joseph E. Parker, executive director, said that a full program of events is planned at each Branch Boys' Club. Branch Boys' Clubs are located at the following addresses: Cucamonga, 10017 Feron Blvd., (987-3515); Ontario, 644 East Francis St., (984-2915); Upland, 845 West Alpine St., (982-7119). Local program will focus attention on the work of the national youth-guidance organization in its efforts to build "Juvenile Decency."

"At our Branch Boys' Club," said Parker, "good kids get a chance to grow up under the principles of honesty, fair play and good sportsmanship -- not only in sports but in daily living. The West End Boys' Clubs offer daily services to some 700 members."

With the guidance of trained, professional youth workers, the youngsters here will participate in a variety of Boys' Club Week activities, including Election Day (Monday); Bring-A-Buddy Day (Tuesday); Swap Night (Wednesday); Beat the Champ! (Thursday); Parents Day (Friday) and All Boys' Day (Saturday).

Slimnastics class

Do you want to get ready for summer fun with a slim, trim figure? The YMCA is the place for you.

A new ten week class in women's slimmastics is now underway at the West End YMCA in Ontario. The class is directed by Nancy Fellows and consists of exercises, trampoline, volleyball and workouts on the universal gym, vibrator or electric bicycle.

The classes are held on Tuesday and Thursday evenings from 8 to 9:30 at 215 West "C" Street, Ontario.

Chaffey chooses 'citizen'

Chaffey College last week extended recognition to one of its own as Citizen of the Year for innovative public service in education.

Honored at the annual Founders' Day convocation was Charles J. Booth, 86, Claremont, former director of the college and Chaffey teacher.

Chaffey's Citizen of the Year was presented to the community gathering in the little theater by Kenneth C. Hinrichsen, assistant superintendent of personnel.

Featured as speaker in the Founders' Day Convocation was

Norris E. Bradbury, retired director of Los Alamos Scientific Laboratory.

Dr. Bradbury, a student here for a year of the Booth period, was introduced by T. Stanley Warburton, superintendent-president, as "one of Chaffey's most illustrious alumni."

The Bradbury address concerned the peacetime uses of nuclear resources. The speaker was the 1970 recipient of the Enrico Fermi Award. The award is conferred by the Atomic Energy Commission.

Charles L. Welch— city's new postmaster

Charles L. Welch, officer-in-charge of the Upland Post Office since Oct. 21, 1969, was named Postmaster Monday. It was his 25th anniversary in the Upland Department.

Welch, who entered postal work as a substitute carrier, Mar. 22, 1946, did so while awaiting word that he could enter a school of mortuary science in Los Angeles. When he was notified 18 months later that there was a vacancy, he was "in love with postal work, and truly I've never been sorry," he said.

The new postmaster has served his entire career in the Upland office. A carrier for 11 years, he was named superintendent of mails in 1957. In 1964 he became assistant postmaster and, on the retirement of John W. James in October, 1969, was named officer-in-charge.

When Welch came to Upland, the population was 3,400 and the post office had 11 employees. It was located at 271 E. 9th St., where Upland Dry Cleaners is now. The post office now has 82 employees. "I began work for 84 cents an hour," Welch related. "Everybody said I was nuts, going to work in the post office. But I like people

and enjoy serving them," he said.

He said his postal crew is "the greatest bunch in the world." They planned to celebrate his anniversary, one employee arriving Monday with a cake. Then they discovered his appointment came through, and the celebration gained impetus.

Welch lives at 587 E. Arrow Highway with his wife Wanda and daughter Melanie, a junior at Upland High. They have two other daughters, both married, Mrs. Monte Prescher and Mrs. Don Smart. They also have one grandson, seven-month-old Michael Charles Prescher.

The new postmaster is a member of the Upland Rotary Club and is active in the First Baptist Church of Upland, for which he has served as organist for 17 years.

He and his wife have the additional hobby of visiting and bringing cheer to elderly shut-ins.

"You'll never get rich working in the post office," he said, "but it provided me with the opportunity to have a thousand friends. And what's more important than friends?"

Chatting about Chaffey

Dr. T. Stanley Warburton, president of Chaffey College talks with Mrs. Robert Mellon, college trustee and Dr. Norris E. Bradbury, retired director of the Los Alamos Scientific Laboratory. Bradbury, a former Chaffey student, spoke during the Founder's Day observance last week.

Census shows county population up 35.8%

San Bernardino County's official population in the 1970 census was 684,072, up 35.8 percent from the 1960 figure of 503,591, the Bureau of the Census, U. S. Department of Commerce, reports.

The official population of the state was 19,953,134, up 27 percent from the 1960 population count, which was 15,717,204.

The 1970 census counted 641,481 white persons in San Bernardino County, 93.8 per cent of the total; 29,250 negroes, and 13,341 persons of other races. In 1960, 95.8 percent of the population was white.

The census showed 59,413 children under 5 years; 185,946 in ages 5 through 17; 373,412 people 18 through 64; and 65,301 who were 65 and older. The population 14 years and over included 325,736 married people, 31,877 who were widowed, 22,587 divorced, and 112,924 who had never married.

San Bernardino County's 1970 population was classified as 89.4 percent urban, and 10.6 percent rural.

There were 212,021 households with 660,181 persons, in-

cluding 35,854 one-person households. In addition 23,891 persons were living in group quarters.

The census counted 251,445 housing units in San Bernardino County, 135,091 of them occupied by owners, 76,930 occupied by tenants, and 39,424 vacant. These included vacant units for seasonal use. The proportion occupied by owners in 1970 was 53.7 percent, compared with 52.4 percent in 1960.

Among year-round dwelling units there were 205,089 single family houses, 34,017 housing units in multi-unit buildings, and 10,825 mobile homes or trailers. The percentage of occupied units with more than one person per room was 9.1, compared with 11.4 in 1960. Of all the occupied housing units, 208,917 had piped water, toilet, and bath, while 3,104 lacked some or all plumbing.

The median value of owner-occupied houses in San Bernardino was \$17,000, compared with \$11,900 in 1960. The median rent paid by tenants in 1970 was \$92 per month, compared with \$73 in 1960. Half were over and half below the median figures.

Editorial. . . .

What has happened in "The City of Gracious Living" in the last two weeks? First, the city council eliminated at one fell swoop the seven man Parks and Recreation Committee, because, the council said, of a letter that was sent by the P & R Committee.

The letter simply asked to review the Parks and Recreation budget. The P & R group asked questions and got no answers, just intimidation.

On the heels of this action, a second "letter incident" involving the Upland Taxpayers Association, who also asked questions of the Upland School District, were intimidated and as a result, the president of the group and the head of a junior high school PTA have resigned their posts.

Has intimidation become a way of life in our lovely city? And, if so, why? Can't citizens whose tax money is being spent by councilmen and school boards ask questions and expect answers without being intimidated?

If they cannot, then it is time to find out why. Councils and school boards, as elected officials are responsible to the citizens who put them in office. Appointed officials should be as responsible to the citizenry as those who put them in office. If elected and appointed officials cannot or will not act responsibly toward the voting public, then it is time for the voting public to find those who can.

-- Jenny Kirkpatrick

P & R member speaks out

Two sides to every story

(Editor's Note: This is the first in a series of articles exploring the Parks and Recreation controversy.)

At the March 15, city council meeting, in a 3 to 2 vote following an executive session, the council eliminated the seven-man Parks and Recreation Committee on the premise of a letter the committee sent to the council. (Yes votes were by councilmen Bailin, McCarthy and Hawkins, with dissenting votes by councilman Rossitter and Mayor Gibson.)

Chairman of the committee, Harold Cook, is not available for comment, but Mrs. Eleanor Warren, vice chairman of the committee, made the following statement:

"The disbanding by the city council of the Park and Recreation Committee was a vindictive and unfortunate incident for the welfare of the citizens of Upland. It removed a vital and important segment of interested and informed persons from overseeing the expenditure and implementing the spending of that portion of the citizen's tax dol-

lar made available for park and recreation purposes. We need more such committees, not fewer.

"In this time of advanced building activity when the very land around us is being gobbled up by developers, it is important that we protect our open space -- if we are to have open space for the future. Your committee fought hard for this, but when money -- big money, is involved, it is difficult to be 'heard.' Do our citizens want border-to-border building and industry for this city?"

"The Quimby Act which was made a law in our state in 1965 provides that land developers give a portion of land/or money toward park needs, thus assuring provision for the added expansion and increased population due to their projects. The city of Claremont have been using this ordinance since 1967 and the city of Los Angeles adopted it just this last December. It seems improbable that a city of the size of Los Angeles with its many excellent attorneys to direct its actions would adopt what our council claims is an illegal ordinance.

"The committee also stressed the need for an around the year recreational program and have been 'pressing' for a complete year around recreational program such as the adjoining cities of Claremont, Montclair and Ontario already offer their citizens. Such a program would include activities for all ages.

"Another of the battles was to protect and preserve areas marked 'green' on the master plan, which designates open space, from being taken over as a maintenance yard for the city instead of remaining space for future park development.

"Two members of this committee, who are outstanding citizens of our community, have dedicated more than 20 years to this committee. Mr. Harold Cook, the chairman, and Mr. John Andreas gave of their time and efforts to help weave a great network of open space into a master plan which our city will some day enjoy as lovely developed park sites.

"Citizens, please do not ever think you had a weak committee to represent you, for in reality you had a STRONG one -- an ac-

tive, alert, intelligent group who thought too much and spoke too much to suit the political arena -- a committee that was given very little power and had to fight every inch of the way for any power at all.

"Could it be that the city manager and some members of the council wished this committee to act as simply a 'rubber stamp' committee for the convenience of council purposes and when they did not conform to this role and got in the way, they were conveniently abolished? -- or that the 'minds of the councilmen and manager were already made up and they did not wish to be confused with facts?' This committee member read about the council action in the paper last night (Mar. 18), but had been told by the city manager some time ago that 'we had better be-have, or our committee might be abolished as they did in Montclair.'"

"Perhaps the city manager and the city council do not feel they need to, but this disbanded committee would feel a great deal happier if that group would justify their action."

OUT OF MY MIND....

By Jenny Kirkpatrick
Editor's notebook

This past week was one that was, so to speak, it was one luncheon after another. MONDAY - It was to San Antonio Community Hospital in Upland to hear Dr. Lorton Chase's talk. She alluded to dreams and their meanings. Well, either I am not using the right formula or something, because I dreamed for two nights and then stopped. Wonder what that means?

TUESDAY - It was a Champagne brunch, or I should say a full scale kick-off dinner for the Spanish Trails Girl Scout campsite fund raising. This was a delightful lunch and we wish everyone would support the Girl Scouts in this endeavor.

WEDNESDAY - It was a lunch at Chaffey Col-

lege in honor of Founders Day. Jim Blackburn and his nice wife were wonderful host/hostesses to the press. Dr. Norris Bradbury and his wife were interesting and all in all it was a good day. Chaffey College is doing a wonderful job of providing education and serving the communities in their district.

THURSDAY turned out to be a quiet "do my work day" at Bonita and "catch" up on all the things that needed catching up.

FRIDAY it was back to fun and I attended the groundbreaking ceremonies and BBQ in San Dimas. That is really the nicest town around. I love their trees (reminds me of Denver) and the friendly atmosphere of San Dimas is refreshing.

The BBQ put on by the women in town was yummy and the place mats, also done by the women, were miniature jeans with a colorful red napkin and

eating utensils struck in their pocket. I am sure if all the women worked as hard as those in San Dimas, all problems facing us would be solved.

Certainly deserving a doff of the hat was Councilman Jim Lough as emcee. And Mayor D. F. Hooper as his straight man. Dave Celestin, planning director, was "right on" with his western garb and horse. His shooting of Lough was authentic enough to make TV. Jack Carruthers, a 38-year Standard Service Station owner on the corner of Bonita and San Dimas Avenues and his wife were honorees and delightful to meet.

And, a doff of the hat to E. E. Wall and all Standard Oil Co. officials who attended the ceremonies which culminated in the company giving a check for \$500 to the City of San Dimas to help their beautification program.

P.S. A special doff of the bonnet to Betty Russell who was given an award for her outstanding service to the community. As Mayor Hooper said, "Every city needs a Betty Russell."

Thanks

Thanks to Mrs. Ken Wiessner of Walnut, Arthur Peters of Upland, and Thresa Knauer of Alta Loma for sending the first recipes for our Newspaper Cookbook. I'll start printing them next week. How about the rest of you? Want to get in on the act?

Boy's Club Week

This is National Boys' Club Week, and we say, "Keep up the good work." The local club used 10,000 hours of labor last year and the three West End Boys' Clubs were used by 33,000 boys. As you know, The Boys' Clubs have been one of my favorite

crusades and needless to say, I'm delighted to see them operating in local centers with a good program under a fine executive director, Joe Parker. Also, a doff of the hat to Brian Cathcart, Upland branch director, Ramon La Porte, Cucamonga branch director, and Jerry Webster, Ontario branch director. The following is a tribute that came across my desk honoring the occasion: Boys' Clubs Week

Commenting on the tendency of politicians to glorify the common man, former President Herbert Hoover once said, "Let us remember that the great human advances have not been brought about by mediocre men and women. They were brought about by distinctly uncommon people..." It is a curious fact that when you get sick you want an uncommon doctor; if your car breaks down, you want an uncommonly good mechanic... I have never met a father and mother who did not want their children to grow up to be uncommon men and women. May it always be so...

These words are inscribed on a plaque which was presented by the Boys' Clubs of America to the Vice President of the United States, Spiro T. Agnew. The Boys' Clubs organization is scheduled to celebrate National Boys' Club week Mar. 28 to Apr. 3. The purpose of National Boys' Club week is to promote the cause of juvenile delinquency and to draw attention to the work of 880 local Boys' Clubs to achieve this goal. Mr. Herbert Hoover served the Boys' Clubs for 28 years as national board chairman. He believed there was no such thing as a common man, and he instilled this belief in thousands of youth during his years of inspiring leadership of the Boys' Clubs.

SDA honoree

Dr. Lowell Godfrey of San Dimas, left, received a Distinguished Service Award at the recent Congress of the California Optometric Association and Auxiliary. Presenting it is Dr. Joseph Farrington, president of the association. Dr. Godfrey is the immediate past president and a member of the association's board of trustees, and received the award in recognition of his services. The award was presented at the recent installation meeting at the Beverly Hilton Hotel, Beverly Hills.

Medallion for trail travel

A Pacific Crest medallion is being established by the Camp Research Foundation which will be available to all persons who have traveled a distance either by hiking or horseback on the Pacific Crest Trail through the National Forests and National Parks in the states of Washington, Oregon and California.

The medallion is offered as a part of the program of research into public use of this National Scenic Trail which was established by an Act of the 90th Congress.

Everyone who has been along the summit crests of the western mountain ranges is asked to send a stamped, self-addressed envelope for the free trail trip report form which is provided by Camp Research. Results of the current studies will be made available to the National Forest and National Park services, and to the State Park agencies which have public recreation areas along the Pacific Crest Trail from Canada to Mexico.

The trail trip report forms may be obtained free of charge by writing to Camp Research, P. O. Box 1907, Santa Ana, 92702.

Completion of the Pacific Crest Trail from Canada to Mexico across the states of Washington, Oregon and California has been authorized by Congress.

This 2,313 mile wilderness, hiking and riding trail traverses 25 National Forests and links together seven National Parks - North Cascades N.P., Mount Rainier N.P., Crater Lake N.P., Lassen Volcanic N.P., Kings Canyon N.P., and Sequoia N.P.

Located along the summit crests of the Cascade Range in Washington and Oregon, and the Sierra Nevada Range in California the trail reaches hundreds of mountain peaks of which 24 are world famous and landmarks remarkable either for their great height, difficulty of ascent, beauty or sculptural form and location.

The trail crosses 19 major canyons, reaches some 900 lakes, and surmounts 57 major mountain passes in the western states, and will be maintained for public use by the U.S. Forest Service for all who like to camp, hike, climb, hunt and fish in the National Forests.

Easter Week camps planned

Scores of Los Angeles area children will soon be on their way to the Woodcraft Rangers Stanley Ranch Camp for an Easter week camping adventure. James C. Flanders, the Rangers Executive Director announced that Woodcraft's Stanley Ranch Camp, a 240 acre ranch in the Saugus Newhall area, will open on April 3 for two separate four day camp sessions. Flanders said, "The Easter week camping experience is the traditional preview of the Rangers summer camp program."

The Woodcraft Rangers a United Way Youth Agency has been offering resident camping to Los Angeles area children since 1922.

The organization operates two separate camp facilities. Stanley Ranch

and the Woodcraft Rangers Lake Arrowhead Camp, located one half mile from the shores of Lake Arrowhead in the San Bernardino Mountains, are open to all children eight through 14 regardless of membership in the organization. The Arrowhead camp offers seven eight day camping sessions for boys and two eight day sessions for girls during the summer months. Stanley Ranch is open for two four day sessions during Easter vacation.

Parents interested in obtaining information about the Woodcraft Rangers and their camping program may contact the Woodcraft Rangers' office, 2111 Park Grove Avenue, Los Angeles 90007 or call 749-3031.

SCE denied interim hike

Chairman J. P. Bukasin, Jr., announced recently that the California Public Utilities Commission has denied Southern California Edison's request for a \$15.7 million interim increase pending final decision on the utility's request for a \$128 million annual increase.

Vukasin pointed out the denial was based on the grounds Edison had failed to establish that any emergency situation exists.

Further, Vukasin said, Edison had failed to prove the company would face irreparable harm in the absence of the immediate relief.

Women scientist will speak

One of the world's foremost science historians and the only woman in the "inner circle" of international science historians will give the Annual Clark Lectures at Scripps College March 30 and April 1.

Marie Boas Hall, Professor of the History of Science and Technology at Imperial College, the University of London, will lecture on "Salomon's House: the Case of the Royal Society" at 8 p.m. Tuesday, March 30 in Balch Auditorium, Dr. Hall will speak on "Empiricism and Rationalism in the Early Royal Society." Both lectures are open to the public.

Cars only on freeway says CHP

Anytime you see someone walking or standing out on a freeway, you're seeing a person in mortal danger. This information comes from the Pomona Area Office of the California Highway patrol.

If you are the one who is afoot on the freeway, then you're in danger. You're defenseless in a world of speed. Yet, we've all seen freeway pedestrians. Some hitchhike, some walk after gasoline, some stop to look at an accident, and some change a tire, right near or on the freeway.

If you must stop to change a tire, get the car well off the roadway, then do it. And the Patrol says that if you must walk along the freeway, make it a short walk for help, to the nearest emergency freeway phone.

Gambit ...

By Bobbe Monk

Seems last week was my week for lunches

MONDAY to hear Dr. Lorie Chase talk at San Antonio Community Hospital. Her topic was dreams and what they can mean to you individually. I guess that hit a spark of dry tinder in my head - I've sure been aware of dreaming since then. Now I want to know . . . what do they really mean Dr. Chase?

TUESDAY it was champagne for lunch, along with corned beef and cabbage too (in honor of the Irish of which I'm a bit of one). The event was to kick off the Girl Scout Drive for their campsite at Mt. Palomar. A small host of newshens and men listened to the plans and ate. The idea is beautiful. I can remember (really!) when I was a Girl Scout and went camping in Sequoia at Sequoia Lake. It was a great two weeks! I'm sure this project would benefit many girls should it become a reality.

THE THIRD luncheon was at Chaffey College, Wednesday, with Chaffey's public relations man, Jim Blackburn, helping the News do its thing. Due to continuing events in Upland, I failed to make the speech, but did manage to meet, and photograph, Dr. Norris E. Bradbury later. The feedback on his talk was that it really hit some tender areas and gave many considerable food for thought.

THIS WEEK started with a very brief fly-by of the Apertivo planned by the Assistance League of Upland. Due to Monday pressures, I could not stay for the brunch, but the setting at Griswold's in Claremont heralded a successful event. Funds raised are for the AL of U's many well-known philanthropies.

IN THE WAKE of the defeat of the Upland Elementary Schools override and the Chaffey High School District's Bond issue, it would seem to be time for a reassessment of goals.

Rather than gathering additional mud to sling at those pro or con elections, parents would do well to decide the kind of education they really want for their children, then stand up and say so! The more heard the deeper the impression. Don't let a few bear the burden for many. After all, it's your child too!

CONGRATULATIONS to Charles L. Welch for being named Postmaster of the Upland department on his 25th anniversary in the business. The genial Welch was honored by his employees Monday, and by his family Monday night. It was a long-awaited appointment, but a popular one. Welch is the oldest employee at the Upland office in years of service. He, in turn, is proud of both his family, and his 82 employees and looks forward to the new career he officially began this week.

Digging in

Kevin Maust, 4, digs into a cake as his mom, Mrs. Ronald Maust and Mrs. Mark Brubaker watch. Approving the sample, Kevin indicated the idea for the Pennsylvania Dutch bake sale planned by the Seventh Street Mennonite Church of Upland was a good one. The Women's Missionary and Service Auxiliary has set March 27 from 10 a.m. to 3 p.m. for the annual mouth-watering event. It will take place in front of Atwood's in downtown Upland and at the Village Shopping Center east of Euclid on Foothill Boulevard.

Golden nuggets

The Ontario - Upland Golden Nuggets Baton and Show Corps will benefit from a fashion show planned today, March 25, at the Ontario Woman's Clubhouse, 738 N. Euclid Ave.

The 1 p.m. show and tea presented by the Parents

League will feature adult fashions from rom herman apparel, Ontario.

Local girl scout council seeks funds for camp site

The Spanish Trails Girl Scout Council hopes to raise \$1,600,000. The reason is a 360-acre parcel it has purchased near Mt. Palomar.

Reasons for the purchase and plans for its development were outlined last week at a luncheon for newspaper and radio representatives at the Fire House Inn in Pomona.

According to Dr. John B. O'Hara, board of directors member and co-chairman of the capital fund drive, \$1,286,000 would complete the purchase of the land and construct a multi-purpose camp. The remainder would set up an endowment for long-range development needs of the campsite and ongoing maintenance costs.

The camp is located in northern San Diego County on the highway to Palomar Observatory. Adjacent to state park lands and the Cleveland National Forest, the acreage runs from meadowland to mountainside, much of it heavily timbered, he said. Nearby is the Pala Indian reservation and mission and the observatory, all possibilities for enriching the program of the camp. "We feel people will

Talking it over

John O'Hara, co-chairman of the Capital Fund Drive for Spanish Trails Girl Scout Council's 360-acre campsite near Mt. Palomar, talks over plans for the land with Mrs. Joseph Axline, council president and Pamela Bales, Senior Girl Scout.

want to invest in this worthwhile endeavor because the adventures derived from camping are a mind-expanding experience that beats anything drugs can offer. In camping together, living together and exploring together girls from every ethnic and economic background lay building blocks for communication and friendship that will pay off in the future to the community and the country", Dr. O'Hara said.

A general Kick-off will be held Thursday, April 29, and contacts will be made from May 1 through Sept. 1, at which time businesses, industries

and corporations as well as individual prospects will be reached. Advance gifts are currently being solicited within the 33 cities comprising the jurisdiction of the Spanish Trails Girl Scout Council. Mrs. Ronald P. Eisworth, chairman of the public relations committee, was in charge of the meeting. A welcome was extended by Mrs. Joseph Axline, council president, Pamela Bales, Senior Girl Scout from Ontario, shared with those assembled what camping does for girls and the thrill she got in visiting the 360 acre campsite.

The association's legislative goals, what can be done to increase low and moderate income housing availability, and real estate education will be among the wide range of subjects to be discussed, he said.

Easter Seals help children

Milton Soneson

Camping is fun for any child, but for the handicapped child it means new independence, the opportunity to learn and play with other children.

Last year 60 crippled children in San Bernardino County enjoyed the experience at Camp Pavioka in Crestline and Camp Joan Mier in Malibu, through camperships awarded by the Easter Seal Society of San Bernardino County.

"The Easter Seal Camps are specially modified and adapted for physically handicapped youngsters," Mrs. Bonnie

Oehl, president of the San Bernardino Society, said. "All operate under medical supervision and are staffed by leaders trained to guide and guard the campers."

Contributions to the annual Easter Seal Campaign, conducted from March 1 through Easter Sunday, April 11, will help provide the camperships.

Mrs. Oehl urges generous support to the fund appeal to make increased enrollment possible by youngsters from San Bernardino County in 1971.

File property tax exemptions now

SB County Assessor John H. Bevis reminds veterans and homeowners that the time to file application for the 1971 property tax is March 1 through April 15.

"The law requires that the application be filed in the office of the county assessor by 5 p.m. April 15 or be postmarked prior to midnight on that date," Bevis said. "There is no provision in the law to permit the assessor to approve late filing."

Veterans who were legal residents of California on or before November 3, 1964, or who entered service from California and who can otherwise qualify are entitled to receive property tax exemption on \$1000 of assessed value.

"To qualify for the homeowner's exemption, the dwelling must be owned and occupied as your principal place of residence on March 1, 1971," Bevis said. If

you are purchasing the home under a contract of sale and the contract is not recorded, a copy of the contract must be attached to the application.

The forms are available and may be filed at the assessor's office, Hall of Records, San Bernardino, and at all of the district offices located throughout the county. San Bernardino County Assessor's Branch Office in this area is 1050 West Sixth Street, Ontario.

Fashion-art show nets school \$350

CUCAMONGA -- Artist's 'N' Model's Night, a fashion-art show held at the Cucamonga Central School cafeteria Mar. 5, netted the Junior High School Beautification Committee \$350.

Milton Stone, chairman of the committee, is now accepting bids for cement work. The Cucamonga Jr. High School Beautification Committee, through several fund-raising events, has funds to begin cementing the central court yard at the junior high school. The committee hopes to complete the court yard sometime this spring.

Local artists, Meriam Ellingson, Jean Corner, Jill Harvey, Phyllis DeJoseph, Lila Gerczyca, Edie Browne, Edna Friedenbach and Maudine Weil, critiqued student art work which was displayed at the fashion-art show.

Edna Friedenbach painted and donated a seascape which was auctioned at the show. Merchants throughout the community also donated items to be auctioned. A donated hand made lace stole for a drawing.

Entertainment was provided by Mrs. Caroline Chaberg and Mrs. Mildred Haley's fifth grade classes from Valle Vista elementary school. They sang a selection of

songs, one of which they wrote themselves, Miss Jacqueline Gore's fifth grade class from Cucamonga Central School danced Colonial dances.

Thought's effect on daily experience will be brought out in a Lesson-Sermon on "Reality" at Christian Science church services Sunday.

Bible selections include this verse from Philippians: "Finally, brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things."

Electricity is vital to your way of life.
So is a healthy environment.
We're working to bring you both.

Edison goes fishing for facts.

What we're really fishing for are environmental facts.

At the San Onofre power plant, sea water is used to cool the plant condensers, and then the warmed water is returned to the sea.

To determine whether this harms the marine environment, Edison commissioned an oceanographic company of national stature to monitor the offshore waters both before and after the plant was built. Monitoring began in mid-1963 — four-and-a-half years before the plant commenced commercial operation — and has continued ever since.

Result: twenty-one reports reveal no significant changes in the marine environment. And that includes three years of plant operation.

In addition, the California State

Department of Fish and Game made its own study of the same marine area in 1969. The Department concluded that the nuclear unit's operation did not appear to have had an adverse effect on the near-shore marine environment.

Aside from the marine environment, some people may be concerned about radiation in the atmosphere from nuclear power plants. Actually, natural background radiation is everywhere and always has been. It comes from the air you breathe, the food you eat, the materials used to

build your home. The San Onofre nuclear power plant is a source of some radiation, too. The question is, how much additional radiation are people exposed to living near San Onofre? The answer: so little that an elaborate monitoring program for the area surrounding the plant has yet to detect any additional radiation from operation of the plant.

Based on these and other facts, we believe nuclear plants are a safe and sensible way to generate electricity. Clean, too. Since there's no combustion in a nuclear reactor, no by-products of combustion are released into the atmosphere.

At Edison, we plan to rely more and more on nuclear power to meet the growing need for electricity in the 14-county area we serve.

and Camp Fire sponsor for four years and assistant for the Cub Scouts. She has been a Sunday school teacher for 10 years and director of the Methodist Vacation Church School for four years.

Mrs. Brew has been a resident of Montclair since 1956. Plus her many civic duties she is a homemaker for her husband Bill, and mother of five children ranging in age from 10 to 29 years. However, she has found time to perfect her hobby

and talent of cake decorating and enjoys making Lehigh its annual PTA birthday cake.

Mrs. Brew has no thought of retiring from her PTA duties. This coming year will find her performing the duties of president of the Ontario-Montclair Council PTA. On the Council she has been membership chairman and 2nd vice president. The year 1970-71 she is Fifth District Conference and Field Service Chairman.

Voice of Vernon

MONTCLAIR - The following notations are from the "Voice of Vernon," Vernon Jr. High School, Montclair.

The student council donated twenty-five dollars to Teen Challenge in order to help people with drug problems, and to assist in the process of cutting down the problem itself.

Teen Challenge is an organization formed in 1938 by Reverend David Wilkerson, New York.

One of his better known books is "The Cross and the Switchblade," the story of teen-agers and drugs in New York.

Fourth grade students from El Camino school have asked Vernon students to co-operate with them in collecting Betty Crocker coupons for a Braille typewriter. This typewriter will be used to make books for the blind.

Bill Sheldon, eighth grade, was first prize winner in the anti-pollution poster contest held recently.

Jeff Halvorsen, seventh grade, was runner-up in the contest and Rick Modglin seventh grade, David Reiser, eighth grade tied for third place honors.

All entries were judged by Mr. Jones, Mrs. O'Shea, Mrs. Treadway and officers of the Ecology Club.

Teacher aid

UPLAND - A volunteer teacher aid program has been developed at Upland High School through the PTA.

Mrs. Don Evans chairman of the program and her assistant Mrs. Fran Brownell, have initiated this program in the Science Department, headed by Alan Bescohy.

Some of the teaching aids being developed by the volunteer group include cassette recording, research, testing, classroom help, preparing bulletin boards and general clerical work.

Any interested person may call Mrs. Don Evans at 985-1255 for more information. The Uplander PTA

hopes to expand this program to include other departments of the high school.

Our Man in Plaid Recommends:

SIERRA PHOSPHATE-FREE LAUNDRY DETERGENT. Shopping Bag recognizes the need for ecological reform—And much of that reform must be made by the citizenry. One area where the housewife can make a great contribution is in phosphate pollution of our waterways. Over 60% of man-made phosphate pollution is directly attributed to household laundry detergents. The best program is one of abatement. But you still need the finest wash possible. Shopping Bag has become involved in a special testing program and as a result, recommends that you try Sierra Detergent one time. Sierra does not contain phosphate, nitrates, enzymes, caustics or salt materials. It is completely approved by government health standards. Our slogan is "make an investment in ecology" . . . buy Sierra one time and give it a try before you make a decision about non-phosphate detergents.

Team approach helps ecology

Representatives of the University of California have reviewed the U.S. Forest Service plans for timber stand protection in the Black Mountain Scenic Area of the San Bernardino National Forest, and have agreed that selective light cutting of smog-damaged and weakened trees will not be detrimental to the environment.

The cutting program is intended to help protect the timber stand by reducing the danger of destruction from insects which live in trees hurt by air pollution. About 480 acres out of the 7,000 total acreage in the Forest will be affected. Research sponsored jointly by the Forest Service and UC-Riverside has shown that smog damage is widespread. Smog-damaged trees are a prime target for invading bark beetles, which can multiply and attack trees in epidemic proportions. Timber experts have determined that selective cuts are the only way to keep trees in the area vigorous and healthy.

In their discussions, the participants also agreed to consult annually about matters of mutual concern as they pertain to the management of the Black Mountain Scenic Area and the James-San Jacinto Mountain Reserve. This cooperative evaluation between the academic society and practicing foresters has the advantage of providing greater knowledge for the wise management of our renewable natural resources.

Oceanograph studies

BY BRUCE WILCOX

Winners from the Alta Loma-Chaffey High School science fair recently went to Oceanside for a week-end of oceanographic studies.

Attending from Alta Loma High School were Shelle Carlson, James McCormick, Randy McKee, Nancy Miller, Gary Sloan and Joan Zyzolowski, instructors attending were Mr. and Mrs. William Kimmich.

The group left Saturday morning from Ontario. The first stop was Mr. and Mrs. Kimmich's boat in Oceanside where the first of two camps was set. The group then went down the coast to Carlsbad where a second camp was set up.

The rest of the afternoon and evening was spent in La Jolla making oceanographic studies, ending up at Scripps Institute of Oceanography where they were shown several experiments in thermal pollution and water purification.

On Sunday the group met at the first camp in Oceanside where they spent the rest of the day in oceanographic studies.

Photos by Joines at CC

Some 30 of the late Robert E. Joines' award-winning photographs will be displayed in the Chaffey College Library through April 2.

The exhibit was motivated as a tribute to the talent of a spare-time lensman who was for many years active in the Pomona Valley Camera Club.

Joines was bookstore manager here from 1967 until his death in a plane crash, Nov. 28, 1970. Just prior to the tragedy, Joines was preparing to teach gratis a course in photography.

Virgil Percy, Montclair High School photography instructor, notes that the works collected for the Joines exhibit reflect "the strong influence of his favorite mentor, Ansel Adams."

Percy evaluates Joines as an artist who sought "the enigmatic composition of content and form that had to be arranged in the demanding frame of the camera's ground glass or viewfinder."

In discussing how Joines experimented with chiaroscuro, this photography instructor further observes:

"He refined the black and white form until he was able to cast a patina of his own loves and insights over the light and shadow captured on the silver of his camera's retina."

'Rap' clinics aid teenagers

From a small beginning a few years ago, there are now more than 30 free clinics in Southern California, providing the majority of their services to teen-agers.

The clientele by no means is restricted to runaways and hippies. Between 40 and 50 per cent of the young who patronize the clinics live at home with their parents -- many in affluent suburbia, according to a University of Southern

California medical educator.

This year alone, an estimated one million youngsters will call the more than 200 Hotline telephone services across the nation for emergency help, or just to "rap."

These are indications of revolutionary changes occurring in the ways teen-agers seek medical and mental health services, says Dr. Dale C.

Garell, USC associate professor of pediatrics and director, Division of Adolescent Medicine at Childrens Hospital of Los Angeles.

Dr. Garell foresees even greater changes in coming years, and believes physicians must keep abreast of the youth culture's momentum and be able to reach across the generation gap if they are to be effective professionally with their teen-aged patients.

Local teenagers get coveted award

The Junior Achievement Industrial Council representing the 165 Achievers in the Citrus Belt Center in Pomona has been selected to receive the coveted Executive Vice President's Award for the month of February in recognition of superior accomplishments in competition with 13 other Industrial Councils throughout Southern California.

C.N. Parker, executive vice president of Junior Achievement in this area for the past seventeen

years, originated this Award in 1959 and it has become the most sought after group participation honor.

Each Industrial Council which is similar in organization and purpose to a Chamber of Commerce - is judged on specific criteria; meeting attendance and adherence to parliamentary procedure; contents and quality of minutes; Chairman's quality of planning and reporting; and the Council's participation in special JA

events. Out of a potential maximum of 300 points, the Council of the Citrus Belt Center amassed 285 points.

The elected officers of the Industrial Council representing the 12 JA Companies in the Center are: Chairman Sara Stoddard, senior at Montclair High School; Vice Chairman Craig McClearen, junior at Ganesha High School; Secretary Candy Hanson, senior attending Ganesha and Treasurer Brenda

Bookout, junior at Pomona High School.

Junior Achievement is a national educational program for high school students. The Achievers organize and manage their own manufacturing or service companies, using recognized business techniques.

Explorer Post 700

WALNUT -- Explorer Post 700, Walnut has been assigned a SOAR Project with the Forest Rangers at Lytle Creek. The Post will be planting trees where the severe fire had scarred the forest. SOAR in scouting language means "SAVE OUR AMERICAN RESOURCES." Doug Marshall, Scott Kelley, Ron Packard, Kevin Carter, Mike Hamilton and Kirk Herring, Mr. Herring Post Advisor, will report the latter part of March.

Post 700 has set up a full schedule for this coming year. In April a Colorado River trip is planned; May is Scout-O-Rama month; June is a backpack into Cleveland National Park; San Jacinto in July; Mexico or Sierras in August; Santa Barbara beach campout in September; Kern River in October; Joshua National Park in November; Holcomb Valley in December. There is still room for a few more boys, age 14 (and in ninth grade) through age 20 to sign up to be an Explorer.

June 2-6 the Post hopes to send their President, Kirk Herring, to Washington D.C. as their representative to the First National Explorer Post Presidents' Congress.

\$355,000 is the goal of the Congress needed by April 10.

The Post will be selling bumper stickers as part of the fund drive. They thank those who have already made donations and pledges. Donations may be sent to D.C. Construction hazards lure youngsters

To prevent serious injury or death to children from these hazards, the Department of County Engineer includes safety clauses in all construction contracts for County buildings that they administer and also enforce safety regulations, Supervisor Bonelli said.

Future major construction projects will provide even more extensive fencing based on recent orders of the Board of Supervisors.

Sand and gravel piles, deep holes, pools of rain water and heavy equipment often attract children to construction sites where their lives are in jeopardy, Supervisor Frank G. Bonelli emphasized.

However, parents also have a responsibility for the safety of their children, Bonelli stressed.

Construction areas for single-family residences tract or multi-story buildings as well as County buildings are all hazardous and parents should make certain their children are not playing in these areas, the Supervisor added.

All construction contracts consummated by the County Engineer require the contractor to provide lights, guards, temporary fencing and warning lights necessary for safety at areas under construction.

Such property is inspected frequently by the State Division of Industrial Safety and safety officers and inspectors of the Department of County Engineer.

Although these safety precautions are taken, some adventuresome children may climb a fence or find a way to enter construction sites.

All adults are requested to immediately notify the Sheriff or police whenever children are observed playing in such construction areas.

Pre-School swim lessons

Beginning March 29, the Pomona Valley YMCA will begin another session of swim lessons for pre-school age children. A variety of classes will be offered beginning with Mother/Baby courses in which the mothers learn how to teach their own youngsters. Children between the ages of three months to three years are eligible for this class. For children ages three to five years, the YMCA offers a Tiny Tot swim program. Lessons are 1/2 hour in length and meet twice a week for four weeks.

Also, the "Y" has a Pee Wee swim program for youngsters five to seven years of age.

The classes are held in the YMCA indoor pool where the temperature is maintained at 82° through the winter months. The YMCA pool is the only indoor pool in the West Valley.

Parents should take advantage of the outstanding program since it prepares the child for future swimming safety as well as enjoyment of the water.

For more information please call the YMCA at 623-6433.

'Very Quick Prayers' help busy people

"O Lord, I pray You to surround me with unbelievers, that my faith in You may be continually strengthened..."

"O Lord, help me to hurry up, lest I be too late to company with you..."

"Provoke me, Lord, to do better tomorrow..."

"O Lord, let me be undismayed by the mistakes I made yesterday..."

"Lord, you hold all things in the hollow of Your hand! Fill the aching hollow in my heart..."

These are but five of the 62 original "very quick prayers" written by Dr. Geddes MacGregor, Professor of Philosophy at the University of Southern California, in a 96-page hard-cover book just published by Morehouse-Barlow Co., New York.

"So Help Me God" is the title of the pocket-sized volume which Dr. MacGregor explains is for half-skeptics and "designed to help very busy people who would class themselves as neither militant unbelievers nor conventionally devout believers."

One short prayer is designed to be used immediately on waking and another to be said just before retiring. Two prayers are provided for each day of a 31-day month.

"They are for those who feel so busy they haven't time for any prayer that would take longer than a husband's good-morning peck for his wife on taking off for the office in the morning," Dr. MacGregor said.

"I hope the use of this little book will help some of us to become more sincere with ourselves," the USC philosopher wrote in an introduction. "Such sincerity is at the heart of all true prayer..."

Dr. MacGregor has

written 14 longer, more conversational prayers for a week in the second part of his book "for those who, less frantic, feel they can give as much time as they give to a glance through the front page of the morning paper."

Prayers in verse form which he hopes some readers will term poetry are provided in Part III for special days such as Advent, Christmas, Lent, Palm Sunday, Good Friday, Easter, and Thanksgiving.

These, Dr. MacGregor says, are for a smaller class of people, "those who perhaps are busier

than anybody like to hear above the noise of the world anecho of the Church's song of peace, and to see, beyond the ugliness of the megapolis a glimpse of the Church's ancient beauty."

For those who think God is fussy about what pronouns are used in addressing Him, the USC professor explains:

"I use 'You' in Part I and II and 'Thou' in Part III. My own opinion is that that's what God minds least about. Some seem to think 'You' to God is very 'with it.' Whether it's very 'with' God is not particularly clear to me."

Economist speaks

DIAMOND BAR - Tani Welsh, Home Economist with Southern California Edison Company's Pomona office will present a program titled "Bright Ideas for Modern Homemakers" at the March general meeting of the Diamond Bar Community Nursery School.

The public is invited to attend this program which will begin at 8 p.m. March 29 at the Diamond Bar Congregational Church, 2249 S. Morning Canyon Road, Diamond Bar.

After the program the nursery school will hold a short business meeting.

Castle Rock

DIAMOND BAR - Open House at Castle Rock School will be held Tuesday, March 30 at 7:30 p.m.

There will be a short business meeting before visiting classrooms, at which time the community club will accept nominations from the floor for next years officers.

Something new has been added this month. After visiting the classrooms, all are invited to a "Ice Cream Social" in the multi-purpose room. Scoops of ice cream and/or cake will be sold for 10¢ each.

Whole cakes may be

purchased for \$1.00. All proceeds will benefit children at Castle Rock School.

Children are welcome. Hostesses for the evening will be fifth grade room mothers.

Debate teams

WALNUT - A group of seventh grade students at Suzanne Intermediate School have been participating in an interesting and stimulating activity; debate.

The method of debating has been explained through various modes of educational communication. The class program procedure and demon-

strations by the La Habra High School Debate Team gave the seventh graders a broad frame of reference. The students also observed the Claremont Men's College Invitational Debate program as well as the Cal Poly Debate Squad.

Suzanne students have learned the need for critical thinking, evidence to support opinion, persuasive speaking, organization of materials, evaluations and the means and ways of improvement.

The students, under the direction of Mr. Rohn, participate in "Challenge Debates."

RHS cheerleaders

ROWLAND HEIGHTS - Rowland High School's cheerleaders swept the Southern California State Championship competition at Arroyo High School Saturday.

Under the guidance of Pep Advisor Sarah Gipsen, the girls devised and performed three original cheers, winning trophies for schools under 1,850 enrollment.

The Varsity squad, captained by Debby Lucas, won out over 29 other schools in the competition. Members are Brenda Lucas, Gail Johnson, Sue Machan, Kathy

MHS netmen 3-1 record

BY MARK BORCHERT

It's about time, Tennis season has finally arrived. It's nice to know that most Montclair students refrained from picking CIF headquarters this year in their annual attempts to get their favorite sport started early.

Instead, they did the American thing by writing to their congressman. Relax, all of you Cavaliers with the loser's blues. The mighty netmen are back, and they have retained their winning ways.

To begin with, Montclair whipped Fontana and Colton blindfolded. They are lucky that they were only scrimmages and an official score was not kept. It is doubtful that the scorekeeper could count that high.

Good ol' Alta Loma got some exercise when they visited Montclair. They should have left their rackets at home; they never touched the ball -- just chased it.

You may be wondering what those five inchholes are doing on Montclair's hallowed tennis courts. They are from Redlands' overhauls. Yes, there is somebody better than the Cavaliers in tennis. Redlands must be the Davis Cup team in disguise. Montclair is grateful to have escaped injury. However, Montclair does not regard the match as a total loss. Ed Spicer and

Mike Murphy should be congratulated on winning one set each.

After finding out what it is like to get whipped, the normally bloodthirsty Coach Pollack instructed his team to be humble.

You can forgive the racketeers for that one mishap with Redlands, the school heroes won't be facing anybody else quite that good this year.

When they visited Ontario, they were gracious gentlemen indeed. They put every thought of hitting their opponents with the ball out of their minds. Don't think that they didn't get the chance.

'Care' seeks recipients

CARE, the international aid and development agency, will be celebrating its 25th anniversary of service to humanity during 1971. Robert Rice, Regional Director of CARE expressed the desire of the Regional Office to contact persons who were the actual recipients of CARE packages.

"Ideally, we would like to talk with someone who received one of our original 1946 European Food Packages. We would be delighted, however, to hear from anyone who has received help from CARE," Mr. Rice stated. Since its inception in 1946, CARE has sent an uninterrupted stream of assistance to the needy of more than 70 overseas countries. Through the years, CARE programs have gone beyond food to include self-help and medical assistance.

CARE's policy has been to withdraw from a country when that country becomes self-sustaining. This accounts for the fact that CARE is presently operating in only 35 of the 73 countries which have been beneficiaries.

CARE's 1971 programming includes emergency relief to the disaster victims in Pakistan; refugee aid in South Vietnam; rehabilitation programs in Nigeria; school construction in Guatemala; agricultural development in India; and many other programs.

Anyone who has received a CARE package is asked to contact Mr. Rice at the Regional CARE office, 4055 Wilshire Blvd., Los Angeles, 90005. The telephone is (213) 385-5408.

Fowls fly coop to watch golfers

Twenty-nine curious guinea fowl and three adventurous peacocks "flew the coop" at the Los Angeles Zoo one afternoon last week and undertook a brief foraging expedition across the greens of the neighboring Griffith Park Gold Course.

It was hard to tell which was more surprised -- golfers trying to tee off in the midst of a flock of fluttering fowls, or the puzzled birds trying to dodge flying egg-like objects.

The adventure ended as quickly as it began, with no casualties on either side, other than an added stroke or two on the 18th hole. The big birds flapped back over, and under the fence separating the two facilities operated by the City Recreation and Parks Department.

Guinea fowl and peacocks, with free fun of the lush Zoo grounds, rarely leave their home range. They have plenty to eat, lots of attention from admiring Zoo visitors, and a variety of interesting daily experiences.

The birds cause a flurry of excitement as they wander around the Zoo, past compounds that house wolves, bears and tigers. Even tram drivers defer to their noisy presence, and wait for the flock to clear the road before continuing their appointed rounds.

All in all, it's a good life for guinea fowl or peacocks, and a rewarding one as long as one doesn't get too curious about the INSIDE of some of those beautiful animal compounds!

Roger Wagner program at Claremont

The Claremont Colleges Artist Course is presenting the Los Angeles Master Chorale in concert Thursday March 25, Roger Wagner will conduct the chorale at 8:15 p.m. in Bridges Auditorium, Sixth and College Way.

The first part of the concert the chorale will perform several Renaissance motets, two French madrigals, two cantatas by Bach, and the Chichester Psalms, a collection of Hebrew psalms arranged by Leonard Bernstein.

The second half of the program the chorale will sing contemporary songs including "Black is the Color" and "Jericho."

Wagner has been music director of choral activities at UCLA for 20 years. He has a doctorate cum laude in musicology and was knighted by Pope Paul VI for his contributions to sacred music.

Tickets are available from any ticket agency.

Taxpayers' forum

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q) Who must file an income tax return this year?

A) The 1969 Tax Reform Act raised the gross income levels at which returns must be filed. Previously a return had to be filed when gross income reached \$600.

A single person must file if his income is \$1,700 or more. Married persons living in the same household and filing jointly must file if their income is \$2,300 or more. These totals are increased by \$600 if a person is 65 or older. Other married persons generally are required to file if they have income of \$600 or more.

Taxpayers due a refund of taxes withheld must file a return to get a refund.

Q) Have you made it any easier for retired people to figure the retirement income tax credit?

A) Yes, the IRS will figure the credit and the tax for them in many cases. To qualify, they must take the standard deduction and have income not over \$20,000 coming only from salaries or wages and tips, pensions and annuities, dividends and interest.

For those who don't meet these qualifications or who decide to figure the credit themselves, the Schedule R Form has been changed to try to make the computation a little easier.

Q) Does a dependent have to be someone related to you?

A) No, you may claim someone who is not related to you if he or she was a member of your household and lived with you the entire year. In addition, the other dependency tests such as support and income must be met. Check the 1040 instructions for details.

Q) Where can I get copies of the tax forms?

A) Everyone who filed a return last year will receive a package of forms and instructions in the mail in January. Extra copies of the forms and instructions will also be available at local offices of the IRS as well as many banks and post offices in January.

Remember to take the blue name label off the cover of the tax package you received in the mail and put it on the return you file. This label identifies your return for speedy processing and avoids refund delays. Any corrections may be made on the label.

Q) How should I handle income from land I rent to a farmer?

A) Unless you are materially involved in the management or farming of the land you rent, you should report income from the land as rent. Use Schedule E, Form 1040.

Q) Twice a week I drive my mother to her doctor for therapy. Can I deduct my driving costs?

A) If you are allowed to deduct medical expenses for your mother you may include such travel costs. For car travel, you may deduct 6¢ a mile or the actual cost of gas and oil.

This 6¢ a mile rate is a penny higher than a year ago and may also be used for travel costs associated with charitable contributions.

Q) I mailed some contributions to a charity in December. Can I deduct them on my 1970 return if they weren't cashed until this year?

A) Yes, check mailed and dated in 1970 should be reported in your 1970 income year.

Q) Where can I get a copy of Your Federal Income Tax?

A) A copy of Your Federal Income Tax, Publication No. 17, may be obtained from most IRS offices for 75¢. It may also be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Q) I have all my tax records. Can I file without my W-2?

A) No, a W-2 withholding statement from each job held during 1970 should be attached to your return. Failure to do so delayed the refunds of many taxpayers last year.

Q) I was out on strike last spring. Do I have to pay tax on the strike benefits I received then?

A) Yes, strike benefits are taxable, unless the facts clearly show they were intended as a gift.

Q) I didn't pay any estimated tax this year and now I find I'm way underwithheld. What should I do?

A) File an estimated tax declaration, Form 1040ES, as soon as possible and pay whatever should have been paid by this date. This will reduce the penalty for underpayment of estimated tax. Form 1040ES and instructions may be obtained from any IRS office.

Q) What's the deadline for reporting the social security tax I withheld for my cleaning woman?

A) February 1 is the due date for the Employer's Quarterly Tax Return for Household Employees for October, November and December.

Q) If someone dies during the year, does an income tax return have to be filed if there was any income or earnings?

A) Yes, the same general tax filing requirements apply to taxpayers who are deceased. There are special provisions, however. For details, send a post card to your local IRS office and ask for a copy of Publication 559, Federal Tax Guide for Survivors, Executors and Administrators. It's free.

Q) What's the filing date for farmers next year?

A) April 15. However, farmers who do not file estimated tax declarations by January 15 should file their 1970 returns and pay the tax due by March 1, to avoid possible penalties for underpayment of estimated income tax.

Real estate taxes are the largest single expense item in apartment building operation, according to the annual "Income-Expense Analysis," published by the Institute of Real Estate Management, a professional affiliate of the National Association of Real Estate Boards.
